

# Day 2 of our trip.

**Hello Dunkirk! We woke this morning in our rooms after a comfortable night in our very big beds. The showers were hot and powerful. We were then able to watch the 110 channels in our room whilst drinking cold cola from the fridges in our rooms. Our clothes had been cleaned and pressed by the Hotel Laundry. After this we ate, Paratha, Chana, Halva and talked (again) how much we were missing our families and you guys.**

**After arriving at school we were greeted by the children who had written us a welcome song.**

**Then we met the staff including Mr Umer who was presented with our gift.**

# Miss Lisa's Andy Goldsworthy Lesson

After Yr 2 children marvelled at the pictures of \willow class at Beeston sidings they looked at pictures of Andy Goldsworthy work and were eager and motivated to create their own masterpieces in their playground.

Miss Lisa said that it was a pleasure to work with such polite, enthusiastic and talented children. The children loved the lesson and can't wait for a gallery of their work to be put together, which we will share with you on our return.

# Mr Jon and Yr 5 and 6

The children shared ideas about energy and how they could overcome the problem of load shedding which happens very often over here. The lesson itself was in the middle of a power cut which prevented us using the projector. We then tested the amount of light available from the sun (it was raining!). After this the children planned how they could minimise the effect of the load shed.

The children were very focused and full of inspired ideas.

The science teacher presented many problems for us to overcome, we are all working on them now..... Watch this space!

# After School

Then we ate Chicken Biryani, salad and yogurt (cooked by the school chef).  
After such a hard day at school we took to the roof top swimming pool.

Relaxing by the pool

Relaxing in the pool

It's cooking tomorrow and a trip to a garden centre. We'll be in touch again.  
See you, bye!!!!
